Does the US Dollar Violate the Biblical Laws of Money and Wealth?...

Does the Lord Really Want His Name on US Currency?
Keep Reading to Discover the SHOCKING Truth…
PLUS… How to Potentially Make More Money than GOD!

Dear Reader,

Our Lord and Savior Jesus Christ had A LOT to say about money…

In fact, Jesus talked more about money and possessions than about any other topic – including faith, hope, heaven, and HELL combined!

Most people don't realize that 2,350 verses of the Christian Bible contain some reference to money, wealth, and possessions…

Obviously, financial matters were an IMPORTANT topic to the Father of Christianity.

And money and wealth continue to be of critical importance in today's world…

Before we move on, I must warn you. What I'm about to share with you is highly controversial.

I expect some serious backlash from the establishment – and possibly even the US government – so I'm not sure how long this presentation will be available…

Yet I think you deserve to know the truth. And the truth is that regardless of your religious beliefs…

What you're about to discover could have a HUGE impact on your financial future, your wealth, and your retirement…

So I recommend you take a few minutes to ***watch this presentation right now*** while you still can…

So what exactly does Jesus have to say about money?

More specifically…

What does He have to say about the US dollar?

And most importantly, how could you potentially MAKE A FORTUNE over the next few years if the situation plays out as the scriptures suggest?

You may be surprised to discover the Bible shares very clear and strong opinions on paper currencies like the US dollar…

Of course, since the Bible was written thousands of years ago, you won't find any specific mention of "paper currencies" in the scriptures…

Yet when you examine the scriptures more closely, you will find numerous references to what the Bible calls "unjust weights and balances."

This phrase is a direct reference to the manner in which the US government manipulates the value of the US dollar today.

Let me explain…

In Biblical times – before the invention of paper currencies – business and commerce were conducted through a system "weights and balances" using scales and measures.

For example…

When someone needed food – like grain or fish – he or she would visit a local merchant who would measure out a pound of grain or weigh the fish.

Then the customer would give the merchant an acceptable form of payment – such as gold or silver – in exchange for the grain or fish.

Is the US Government Acting Like a Dishonest Merchant?

It was fair and simple way to do business – at least as long as everyone was fair and honest that is.

It turns out many merchants engaged in the deceptive practice of rigging the scales in their favor.

Obviously, the customers were cheated because they did not receive the full amount of grain or fish they paid for…

The Bible condemns this practice referring to "unjust weights and balances" as a sin. Stealing is an unfaithful act against the Lord.[1]

The Bible denounces this form of theft over and over again…

Here are a few examples…[we can use all of those or pick a few. Create images that look like pages from the Bible]

Proverbs 20:10

Differing weights and differing measures, Both of them are abominable to the LORD.

Proverbs 11:1

A false balance is an abomination to the LORD, But a just weight is His delight.

Proverbs 16:11

A just balance and scales belong to the LORD; All the weights of the bag are His concern.

Proverbs 20:23

Differing weights are an abomination to the LORD, And a false scale is not good.

[1] https://bible.org/seriespage/21-sin-stealing-exodus-2015

Deuteronomy 25:13-16

"You shall <u>not</u> have in your bag differing weights, a large and a small. "You shall <u>not</u> have in your house differing measures, a large and a small. "You shall have a full and just weight; you shall have a full and just measure, that your days may be prolonged in the land which the LORD your God gives you.

I could share many more Biblical references but you get the point…

As you can clearly see, Jesus frowns upon such dishonesty and deception. And the Bible expressly forbids the unscrupulous practice of using unjust weights and measures.

Obviously we no longer live in Biblical times so it would be easy to dismiss this talk of unjust weights, measurements, scales, and balances as irrelevant to today's modern society…

But is that really true?

When you dig deeper, you'll discover today's paper currencies fit the biblical definition of "unjust weights" and "false balances" like a glove…

Before I explain, consider some other simple and more modern examples…

Like a lawyer or accountant who cheats you by billing you for 8 hours of work when he or she actually only worked 4 hours…

Or an appliance salesman who steals your money by selling you a "new" refrigerator when he knows it's actually refurbished…

Or the unscrupulous car salesman who robs you by rolling back the odometer so he can charge you more for a car with lower mileage…

These are all modern examples of "unjust weights" and "false balances"…

How the US Monetary System Robs Us Blind with "Unjust Weights" and "False Balances"…

Another perfect example is the US dollar. Because the US government can print as much money as it wants anytime it wants without a system of "just weights and balances"…

As you'll soon see, the government is effectively tipping the scales in their favor just like the dishonest merchants did thousands of years ago.

To further illustrate the point and demonstrate how the US government has created an unfair monetary system consider how the dollar bill has changed over the years…

Take a look at the photo below…

This is a One Dollar Bill from 1923. You'll notice the words "Silver Certificate" at the top.

And at the bottom, you'll notice this bill can be exchanged for "One Silver Dollar Payable to the Bearer On Demand."

Those words are IMPORTANT because they specifically spell out a just system of weights and measures.

The US government promised the One Dollar Bill could be exchanged for a specific and measurable amount (or weight) of silver.

And the government held silver dollars in reserve to back up this promise.

Just like in Biblical times when the merchant would exchange one pound of grain for an acceptable form of payment…

The US government would exchange the One Dollar Bill for a fixed and measurable amount (or weight) of gold or silver.

More importantly, this system of "just weights and measures" prevented the US government from manipulating the money supply and the value of money…

Because the amount of money they could print was limited to the amount of gold and silver they had in reserve.

Flash forward to today's One Dollar Bill…

Notice the BIG difference. The words have changed considerably…

The One Dollar Bill is no longer a "Silver Certificate."

It's now a "Federal Reserve Note."

And it's no longer exchangeable for One Silver Dollar. Those words have been removed. This is paper currency.

Whereas in 1923, a One Dollar Bill was backed by a well-defined and just system of weights and measures…

Because you could exchange it for a fixed and measurable amount (or weight) of gold and silver…

Today's One Dollar Bill is backed by NOTHING!!

It only has value because the US government has decreed by "fiat" that it has value. That's why paper currencies are also called "fiat currencies."

Of critical importance is that the value of today's paper or "fiat" currency is not clearly and specifically defined as it was in 1923…

Think about it…

When the merchants of Biblical times wanted to make more money, they needed to produce more goods like wheat or fish…

In 1923, when the US government wanted to print more money, they needed to acquire more gold and silver…

But today, when the US government needs more money, they just fire up the printing presses and print as much money as they feel like printing!!

And the government needs to produce absolutely nothing in exchange for this money – no gold or silver – no wheat or fish…nothing!

This is the equivalent of a Biblical merchant taking your money and not giving you any wheat or fish in exchange.

It's flat out theft – plain and simple.

In other words, the just system of weights and measures has been completely removed from the US monetary system.

And the US government is in clear and blatant violation of the primary Biblical principle of money and wealth.

What a tragedy that even most devout Christians misunderstand one of the oldest and most basic Biblical principles of money and wealth.

And it's downright blasphemous for the US government to print "In God We Trust" on all of its fiat paper currency.

Obviously I cannot speak for Him, yet one of the rare instances were God gets angry is when he discovers unscrupulous merchants selling their wares in His temple.[2]

So its highly unlikely the Lord would want his name prominently displayed on such an abomination of the very monetary and wealth principles He devoted so much time to teaching in the Bible.

Removing the requirement to back up each US dollar with a fixed and measurable amount of gold and silver gives the US government the power to manipulate the value of the US dollar by increasing or decreasing the money supply.

And as the Bible could have easily predicted, the results have been disastrous!

Any high school student understands the simple economic law of supply and demand.

Applied here, it means the more dollars the US government prints, the less value each dollar has.

[2] http://biblehub.com/bsb/john/2.htm

Look what's happened since 1923…

It would take $14 dollars today to equal the value of just one 1923 dollar.[3]

The value of the US dollar has declined by a staggering 93%!
[insert a chart to graphically illustrate this point]

In other words, the US government has manipulated the value of the dollar and stolen 93% of the purchasing power of your money!

The US government is secretly and silently destroying the purchasing power and life savings of its own citizens…

And it's all because US monetary policy is in direct violation of the Bible!…

Just like the unscrupulous merchants in Biblical times, the US government has "rigged the scales" in their favor!

If this is all new to you, it's NOT YOUR FAULT…

How could it be that the US government is stealing from us in plain sight yet not one in a million people even realize it?

Here's how two of the most accomplished and celebrated economists of all-time explain the situation…

> *"There is no subtler, no surer means of overturning the existing basis of society than to debauch the currency.*
>
> *The process engages all the hidden forces of economic law on the side of destruction, and does it in a manner which not one man in a million is able to diagnose."*

— Sir John Maynard Keynes – the Father of Modern Macroeconomics[4]

> *"With the exception only of the period of the gold standard, practically all governments of history have used their exclusive power to issue money to defraud and plunder the people."*

— Friedrich A. Hayek, Nobel prizewinning economist

Unfortunately, there's nothing we can do to change the US government's monetary policy…

[4] https://en.wikipedia.org/wiki/John_Maynard_Keynes

Fortunately, you now know what few Americans realize…

Even better, you're in a fantastic position to not only protect yourself but PROFIT from this situation…before it's too late!

As you'll soon see, we're lucky to be living in a historic time in which anyone who can **ACT QUICKLY** and take a few simple steps I'll share over the next few moments could potentially reap financial rewards of Biblical proportions…

Here's how…

In a nutshell, the US government is not the first to violate the monetary and wealth principles Jesus taught in the Bible…

Countless civilizations throughout history have marched off a similar financial cliff before…

That means we have an abundance of historical examples to follow.

As it turns out, the situation slowly plays out in almost the same manner every time… [expand on this? I have seen the "X stages of financial collapse somewhere]

This knowledge gives us an unfair advantage over the masses that don't have a clue how the whole global financial system is rigged against them and wonder why they can't seem to get ahead…

Because you've trusted me and taken a few moments to educate yourself…

I'm going to share with you a TIME-TESTED and PROVEN BLUEPRINT on the best ways to PRESERVE your wealth AND make A LOT money in these types of situations…

In some cases a STAGGERING amount of money that could create the kind of generational wealth that eliminates money worries for you and for future generations of your family forever…

And perhaps more importantly, we know which investments to avoid so the US government's blasphemous monetary policies won't destroy your wealth and ruin your retirement…
